

Identify the Type of Sentence and justify your answer

- All water on Earth is connected.
- Earth is the only planet containing liquid water, and the amount of water on its surface hasn't ever changed.
- Whenever I swim in the ocean, I will remember that this water source makes up over 97 percent of Earth's water!
- We live on a watery planet.
- After I read the text, I realized Earth's water comes from one global well.
- The amount of water on Earth has been the same for billions of years.
- When you think about where water is on Earth, you don't realize water can be found under the ground.
- All water on Earth is connected, so there really is just one source of water.
