

Mr. BOUKROUS Said

Classes : 2nd Year bachelor's level

Affixes

Prefix: a group of letters that come at the beginning of a word.

Suffix: a group of letters that come at the end of a word.

Root: the basic part of a word; the prefixes and suffixes are added to it

Example: Change is a root word. By adding the prefix 'un' and the suffix 'able' you create a new word with a new meaning, unchangeable.

Un + change + able = unchangeable

Prefix root word suffix

Extra explanation

The prefix 'un' means 'not'

The root word 'change' means 'to alter' or 'to make different'

The suffix 'able' means 'can do'

So, unchangeable means 'not able to be altered or made different'
